district of El Jaral or from the historical centre of Guía de Isora. This path can be followed in both directions; starting from the

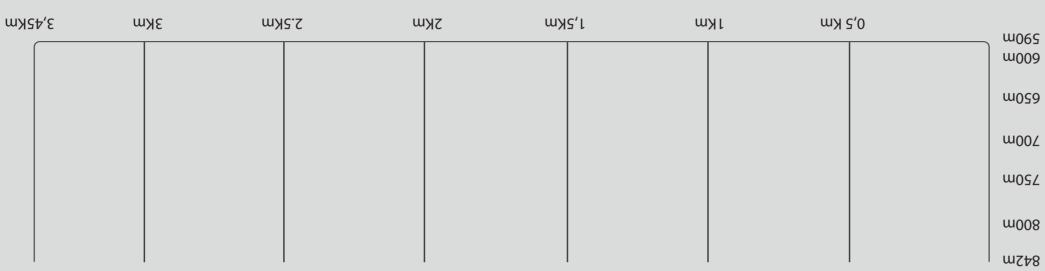

Precaution must be exercised on this path:

it meets the PR-TF 70 path, which will lead us to the historical ascends the northern side of the abovementioned ravine, until ved in the town. Here we will take the path to La Vegueta which few ethnographic elements with religious symbols still preserravine. There is a former Stations of the Cross here, one of the along what is known as the curve of the Barranco de Rodrigo either side of the path, which continues down to the TF-82 road, re we follow the path down. As we descend there are walls on Abajo. A few metres later we pass las Cruces de Ramallo, whe-Apóstol, where we take the path traditionally known as Maderos We begin the route in the district of El Jaral, on calle Santiago

centre of Guía de Isora.

Guía de Isora Path Network

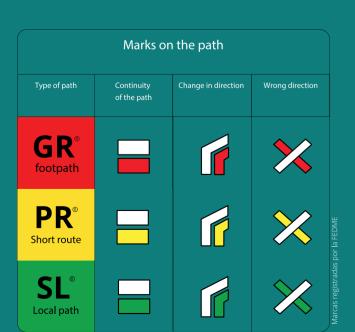

# SL-TF 206 El Jaral - Guía de Isora

# **HOW TO GET THERE**

By car from Guía de Isora taking the TF-82 to the district of

#### PR-TF 69 Chío-Vera de Erques

Along this path we can observe numerous plots devoted to traditional agriculture, such as vineyards and some isolated houses. A visit to the rural settlement of Chirche is a must as it has been declared a Site of Cultural Interest, as well as the hamlet of Las Fuentes.

#### PR-TF 70.3 Boca Tauce - Refugio de Chasogo

The landscape along this path is mainly volcanic badlands and interesting volcanic morphologies. You will observe former threshing floors (eras) built on pahoehoe lava, known as the Era de la Fajana de Charagueche and the Era de los

PR-TF 69.1 Chiguergue-Chasogo

Most notable along this route is the impressive area of ropy lava, pahoehoe flows and lava tubes. This path leads to the recreational area of Los Arenales (recreational area in Chío).

#### **SL 201 Chío-Arguayo**

Along this path we will see traditional agricultural plots with low dry stone walls, and we will enjoy panoramic views of the western side of the town. In this area of volcanic badlands, the main vegetation consists of aeoniums and isolated pine

PR TF 70.1 Boca Tauce - El Jaral

This route offers spectacular panoramic views of the town, and especially of the Barranco de Tágara ravine. There are different ethnographic elements along the path.

#### **SL 203 Chío-Arenales**

The route begins by crossing a pine forest growing on recent basaltic lava flows and passes through a very homogeneous area with small lapilli fields and volcanic badlands. There is a recreational area here and a zone for camping.
