HOW TO GET THERE

From the Juan Évora Ethnographic Museum, in Boca Tauce, taking the PR-TF 70 path which leads us to its junction, and also from the district of El Jaral.

Line	Journey
417	From Costa Adeje
460	From Icod de los Vinos
473	From Los Cristianos to Los Gigantes, via Playa San Juan y Alcalá
477	From Los Cristianos to Los Gigantes, direct
493/494	From Los Gigantes

Within the town, Titsa also operates various urban lines to access the smaller districts:

490	Guía de Isora - Vera de Erques
492	Guía de Isora - Chío, via Chiguergue

*490 y 492 only operate on weekdays

Guía de Isora Path Network

Level of difficulty

Precaution must be exercised on this path:

From this point, and until the end of the path in the district of El Jaral, we will be able to enjoy different outlooks, as well as ethnographic resources (threshing floors, ovens, etc.). This path can be followed in both directions: leaving from the car park of the Juan Évora Ethnographic Museum (in Boca Tauce) or from the district of El Jaral.

PR-TF 69 Chío-Vera de Erques
Along this path we can observe numerous plots devoted to traditional agriculture, such as vineyards and some isolated houses. A visit to the rural settlement of Chirche is a must as it has been declared a Site of Cultural Interest, as well as the hamlet of Las Fuentes.

SL 201 Chío-Arguayo
Along this path we will see traditional agricultural plots with low dry stone walls, and we will enjoy panoramic views of the western side of the town. In this area of volcanic badlands, the main vegetation consists of aeoniums and isolated pine trees.

PR-TF 69.1 Chiguergue-Chasogo
Most notable along this route is the impressive area of ropy lava, pahoehoe flows and lava tubes. This path leads to the recreational area of Los Arenales (recreational area in Chío).

SL 203 Chío-Arenales
The route begins by crossing a pine forest growing on recent basaltic lava flows and passes through a very homogeneous area with small lapilli fields and volcanic badlands. There is a recreational area here and a zone for camping.

PR-TF 70.2 Boca Tauce - Las Fuentes
This route provides impressive panoramic views of the mountains of Isora, and even out as far as the islands of La Gomera, La Palma and El Hierro. We will find endemic species such as tagasaste and sticky broom (codesos), and we will visit the hamlet of Las Fuentes.

SL 206 El Jaral-Guía de Isora
The Barranco de Rodrigo ravine and the Cruces de Ramallo are some of the places of interest that you will find along this path covered in rock roses, shrubs with striking white flowers traditionally used to smoke cheeses.

OUR PATH NETWORK

PR-TF 70.3 Boca Tauce - Refugio de Chasogo
The landscape along this path is mainly volcanic badlands and interesting volcanic morphologies. You will observe former threshing floors (eras) built on pahoehoe lava, known as the Era de la Fajana de Charagueche and the Era de los Guanches.

- Look after your safety**
 - Wear suitable walking boots or shoes for the difficulty of the route.
 - Do not forget to carry a raincoat and a hat to protect yourself from the sun.
 - Make sure you have enough water and food for the duration of the walk.
 - Remember that there is not always mobile phone coverage in natural areas, but it is advisable to carry a mobile phone. Check that it is fully charged before leaving.
 - Risks increase if it rains or there are strong winds. Stay informed of the weather forecast.

- Preserve the environment**
 - Keep the path clean and take your rubbish with you.
 - Take great caution with cigarette butts. They can cause fires.
 - Bear in mind that we are in fragile natural areas. Do not pick or take plants or any other elements.
 - Avoid creating noise. Respect the environment.
 - To preserve the landscape, do not leave the marked paths.

- Plan your route**
 - Avail of the help of guides, maps and people with adequate walking experience (for example, from walking clubs and associations, tourist information offices and accommodation providers).
 - Obtain information about distances, difficulty level and the estimated time needed to complete the route, as well as any possible risks that could occur.
 - Gauge your physical ability to complete the route according to its technical characteristics: accumulated ascent and descent, duration...
 - Consult the weather forecast.
 - Tell your friends or relatives about the route you plan on doing and where it is.
 - If you are walking with children or larger groups remember that you will need a lot more time.

El Jaral

Las Fuentes

El Jaral rural hamlet

Located on the higher slopes of the town of Guía de Isora, the El Jaral hamlet lies alongside other traditional settlements such as the Las Fuentes hamlet. This rural hamlet was established as a result of the climate conditions and the fertility of the volcanic soil, which led to important agricultural activity in the zone, based on dry farming and fruit trees. Today it is notable for its agricultural farming for own consumption in a particularly natural space.

Eras

Circular area, dug into the rock, or built on flattened earth, used to winnow and thresh cereals. It had a wind-breaking wall, perimeter stones, paving and a
